

COMPANY POLICY FOR FOOD SAFETY AND ENVIRONMENTAL MANAGEMENT

The management board discussed about the implementation of the policy of “Pites Kolios” company which consists in the complete customer satisfaction and the continuous improvement of the produced products quality and safety as well as the environmental management.

For the above reason, our company implements a food safety management system regarding:

- a) the production and storage of frozen and shelf stable pastry food
- b) the storage and trading of standardized products
- c) the company management team believes in the continuous improvement of food safety and environmental management

The following principles form the company policy

- a) the accurate implementation and continuous improvement of the FSMS
- b) the continuous updating, tracking and acting according to the legislation of food safety and environmental management
- c) all actions that may affect food safety, quality and the environment are planned and implemented in accordance with the established procedures and documentation of the FSMS
- d) its alignment with customer requirements with valid answers to complaints based on documented procedures
- e) the notification, application and abidance with the FSMS at all company departments
- f) the notification to all interested parties
- g) the act of confirming the FSMS suitability
- h) the continuous staff training on food safety
- i) the automation of the equipment
- j) the observance and improvement of the safety rules
- k) the systematic identification, evaluation and control of all environmental aspects and effects due to the company operation
- l) the continuous effort to prevent pollution that may occur during the production
- m) the ongoing effort to minimize the generated waste quantities by applying the best available reuse and recycling techniques
- n) the safe management of any hazardous waste that occurs in the company processes
- o) the availability of all necessary resources for the accurate implementation of the company policy
- p) the setting of measurable goals
